WELCOME

Our office facilitates faculty scholarship across all the disciplines represented in the College of Arts and Sciences (CAS). The College promotes discovery and learning by students and faculty in the sciences, the humanities, and the arts. CAS faculty are committed to making a difference in the world through their research and scholarship.

The CAS Office of Research team serves as a resource for faculty who are developing new ideas, seeking financial support for projects, and managing external funds. We also work to facilitate interdisciplinary research and scholarship across CAS departments and in collaboration with faculty from other units at UNCG and elsewhere.
